

Enhance your interior design with Architectural Seamless Resin Flooring

Marble

Granite

Gold Leaf

Terrazzo

Antiskid designs, supplies and installs polymer epoxy and polyurethane seamless resin floor surfaces for all residential and commercial floor applications.

Whatever your design vision, Antiskid provides creative concepts and recommendation for decorative seamless resin floor surfaces in a wide range of colours, textures and finishes. Our resin floors not only enhance your interior designs, but they're also durable, easy to clean, and come in anti-slip or smooth finishes. They're ideal for display areas, shop fronts, modern housing developments, building entrances or anywhere you want to make a statement.

Decorative Flake

Polished Flooring

Enhance your interior design with Architectural Seamless Resin Flooring

Make a statement

Combining class, finish and aesthetics, Antiskid Architectural Seamless Flooring provides a unique, decorative, bonded surface designed to enhance the broad spectrum of Interior Design.

Available in a diverse range of natural or synthetic colour effects, Antiskid Architectural Seamless Flooring is ideally suited for the subtlety of natural architectural design or alternatively to provide for bold eye catching kaleidoscope colour finishes including extensive metallic colours.
